

EXCELLENCE IN...

HIGH SPEED ORDER PROCESSING SYSTEMS

Real Time Order Entry & Processing

All of our sales staff, Inside Sales as well as Outside Sales, are provided with high speed access to our systems so that as soon as your order is placed, it is immediately put into our production system. With this system we can assure you the fastest delivery possible.

Continuous Production Monitoring

With the use of our computerized production system, workloads in our plants are monitored and adjusted so that your order will be ready for shipping when you want it.

High Speed Order Processing Equipment

With the use of two Hubtex 4 way sideloaders, two Cleco sideloaders, one Hyster order picker and eight overhead cranes, your order is pulled and ready to ship in minutes.

Computerized Truck Dispatching Systems

Getting your order to you "just in time" is our primary goal. With the use of our computerized truck dispatching system, our dispatcher can track your order through production, routing and deliver to you "just in time."
